Summary

Cloud-focused cybersecurity student building secure systems on AWS, with four end-to-end AWS projects and the AWS Certified Cloud Practitioner credential.

Education

Arifa Institute of Technology — Nagapattinam, TN
Bachelor of Engineering in Computer Science (Cybersecurity) — *Jun 2025 – Jul 2028*

Government Polytechnic College — Tamil Nadu
Diploma in Engineering (Grade: 80%) — *Jun 2020 – Jul 2023*

Experience

Founder — 2025 – Present
Arifa Cyber Corps (Cybersecurity & Cloud Club) — *Nagapattinam, TN*

- Founded and lead a campus cybersecurity and cloud club; conducted sessions for around 500 students. AWS Student Builder and Google Student Ambassador.

IT Support & Operations Trainee — July 2023 – June 2024
TVS Brakes India Pvt. Ltd. — *Chennai, Tamil Nadu*

- Monitored network and security activity across Windows/Linux endpoints and firewalls, escalating suspicious activity promptly.
- Executed routine vulnerability scans to recommend patch prioritization and investigated phishing for security.

Quality Control Intern — Jan 2023 – Feb 2023
FusionWorks Technologies — *Tamil Nadu*

- Conducted data analysis and digital documentation reviews to proactively identify and respond to operations.
- Assisted in system upgrades, data validation, and process improvements to enhance tracking capabilities.

Cloud Projects & Labs

Advanced Blue-Green Deployments | *CodeDeploy, ECS, Lambda, ALB, CloudWatch, SNS*

- Built zero-downtime blue-green deployments for ECS and Lambda with traffic shifting, health checks and alarm-driven automated rollbacks.

Oracle to Aurora PostgreSQL Migration | *AWS DMS, SCT, Aurora PostgreSQL, RDS*

- Migrated a heterogeneous database with minimal downtime using full load plus CDC, with schema assessment and post-migration validation.

Serverless Data Lake Architecture | *Lambda, Glue, EventBridge, S3, DynamoDB, Athena*

- Built an event-driven data lake with Lambda layers, Glue ETL, schema discovery, data quality scoring with quarantine and CloudWatch metrics.

Security Incident Response Automation | *Security Hub, EventBridge, Lambda, SNS, IAM*

- Automated severity-based classification, remediation, SNS notifications and manual escalation for Security Hub findings.

Certifications & Achievements

Professional Certifications: AWS Certified Cloud Practitioner (May 2026), Microsoft SC-200 (Defender XDR), AZ-700 (Azure Networking), Fortinet (FCA)
Competitions: **Top 10 Finalist** - AICCI National Startup Summit, **4th Prize** - Nimirndhu Nil Hackathon (State Level), **3rd Prize** - Kadarkalam Hackathon (StartupTN)
Additional Training: AWS Solutions Architecture Job Simulation (AWS & Forage), Startup Singam Homepreneur Awards 2026

Technical Skills

Cloud & DevOps: AWS (EC2, S3, IAM, VPC, ECS, Lambda, Glue, DMS, SQS), CloudFormation, Terraform, Docker, Kubernetes, Jenkins
Monitoring & Security: CloudWatch, Security Hub, GuardDuty, Graylog, Zabbix, OWASP, JWT, IAM Least Privilege
Operating Systems & Tools: Linux (Ubuntu), Windows Server, Git, GitHub Actions, GitLab, VirtualBox, VMware
Development: Python, Bash, Java, JavaScript, SQL, Flask, Django, FastAPI, Spring Boot, PostgreSQL, DynamoDB
